EXPERIENCE

iOS Developer & Product Design
Freelance

Developed & Launched iOS app for fintech startup, Sqrrl. Built music player module for UPCI music app for churches; it can individually modulate components - drums, bass etc.

2016

Product Head & iOS Developer
MoldedBits

iOS - Developed & Launched apps for companies like Toppr, ixigo.com, MunchAdo, Gleepost etc.
Product - Lead all in-house projects and their development. Worked on products in legal industry, card game app for iOS and Android, e-commerce retail.

2013

JavaScript Developer
Exponential

Solely Responsible for building JavaScript Rich Media ads. In my tenure of 11 months, I shipped 3 products - Toolbar, Pushdown Ad, & Sidekick Ad.

2012

SKILLS

SWIFT / OBJECTIVE - C

With 4+ years of experience, shipped 15+ apps on the App Store which reached 20 million users.

FRAMEWORKS & TOOLS

Worked with frameworks like Alamofire, SnapKit, AVAudioEngine, Photos, Keychain, In-App Purchase, AWS, Offline Storage, Fastlane, Crashlytics (Fabric).

UI / UX PRINCIPLES

Guided clients like Sqrrl, UPCI on best UI/UX principles and Apple design guidelines. I help my clients make decisions on user flow.

PRODUCT DESIGN

Helped my clients brain storm around their initial ideas, zero in a solution and then built it. We also conducted User Studies.

EDUCATION

2008 - 2012

Indian Institute of Technology, Delhi
B. Tech. | Electrical
